

Teams Piloting with Office 365

Small scale pilots for
organisation-wide benefits

Jon Littlefair
Head of Modern Workplace
Telstra Purple EMEA

Piloting approaches for long-term success

Our experience has shown organisations that engage in smaller pilots or trials are able to access significant learnings that result in smoother, more efficient rollouts.

Piloting Office 365 Teams with Telstra Purple

Sample the possibilities and design the perfect adoption plan with Telstra Purple's piloting process. Working with Telstra Purple, we will explore and review how Teams could benefit your organisation's business processes, team collaboration and employee engagement.

Workshops and analysis will result in a small-scale pilot that will uncover the benefits of Office 365, as well as identify a road map for rolling out Teams across your business.

What's covered?

- › Technical readiness assessment
- › Usage scenarios for pilot teams
- › Three-week pilot duration, including support and coaching for participants
- › Review and recommendations at pilot completion

Telstra Purple Consultants

Two Telstra Purple experts will work closely with you to guide you through the pilot. An Office 365 Consultant will establish your technical readiness, while a User Adoption Consultant will facilitate workshops, support participants through the pilot, and prepare a review and recommendations.

Who is it for?

You will know best who the key stakeholders are within your organisation, but typically the best people to join us are the technology and business teams who are excited about trialling new ways of working and collaborating.

What Will I Get?

Telstra Purple will work with you to define:

1. Pilot objectives and use-cases
2. Pilot User identification
3. Define communications and training requirements
4. Pilot implementation and management

About Telstra Purple

1,500+
Experts

A team of 1500 technology experts across the globe specialising in network, cloud, security, collaboration, mobility, software, data and analytics, and design.

4
Regions

Built on a foundation of acquisitions we are a powerhouse of demonstrable experience and expertise. We're committed to collaboration. We bring the best people across our organisation together with yours to design, build and deliver outcome-based solutions.

Best in Breed Partnerships

We've built strong global partnerships with industry leading vendors including Microsoft, AWS & Cisco but always deliver purpose-built solutions, with people at the centre.
